

H39 Bluetooth Headset User's Guide

Charging the Headset:

- ✓ Please charge fully before using the headset
- ✓ Plug the charger one end into any PC's USB port, the other round end into the little hole of the headset, and you should see the blue/red light flash once or twice
- ✓ Then the red light will stay on, when it's off, it means your headset is fully charged, this may take 2-3 hours
- ✓ After the headset is fully charged, it's ready for use
- ✓ Turning on/off the headset: Turn on the headset, by pressing firm the button (where the blue/red light is), until you see the blue/red light blinks. You may turn it off by pressing the button until all light is gone.

Using the headset with your mobile phone:

1. Turn on the bluetooth in your mobile, and make your phone "visible" to other bluetooth devices (refer to your mobile phone user manual)
 2. Press the on/off button on the headset, keep the red/blue light blinking – this is the only time the headset may be found by the phone!
 3. From you phone search bluetooth device, then select "connect", or "pair device"
 4. You will be asked by the phone for a password to pair them, input "0000", "Enter" or "OK", and you phone will show "connected" to H39 in a second, and the earphone icon would be on usually on your phone's main screen. If you have plug the headset into your ear, you should hear a "beep" too
 5. After the headset is connected, please insert it into one of your ears, otherwise you might not hear your phone ringing until they are disconnected
 6. If you would like to use the phone only again without the headset, please select "disconnect" from your phone's menu, the headset will turn itself off after a while, or you may turn it off right after disconnection
 7. Other enhancement: You may use the "hook" to make the headset more secure on your ear; Volume control: there is a silver "+" and "-" button at either side of the headset, press "+" to make it louder, and "-" to make it quieter.
- Please note: The instructions here may only be used for information only, the actual installation might not happen exactly as instructed, due to the product development, and various settings of PCs, and the software versions etc.
 - Compatible with: ALL mobile phones that have bluetooth

Thank you and enjoy your purchase!
